# Basins, Bidets & WCs

The choice of basins, bidets and WCs at C.P.Hart is almost limitless. Quality and durability are the fundamental features to consider; however beyond these, our huge selection includes a range of styles from the timeless classic through to contemporary and cutting edge. Whether you are looking for a traditional basin with a lustrous ceramic finish or a revolutionary multi-functional washlet by TOTO, we have something to suit every taste.

## Classic

The appeal of flawless, sculpted ceramic is undeniable. Our classic ceramics are made in the Potteries, the heart of the British ceramic industry for over 200 years. Cast from china clay, each basin is perfectly symmetrical and smooth. Layer after layer of a special glaze are applied before it is carefully fired to a gleaming, flawless finish. This can be seen in our iconic London range – the very essence of luxury.

## Contemporary

If you prefer a more contemporary aesthetic, consider the free-flowing curves of our Glass Design bowls crafted in Tuscany, or the velvety matte finish of K|STONE's freestanding basins that flaunt modern yet refined silhouettes. Make a bold design statement by opting for a basin or WC in a stylish hue – Cielo's Shui range is available in 16 luxe finishes, from soft grey to forest green.

## Cutting Edge

High-tech combined WCs and bidets offer a new standard of cleanliness. Japanese brand TOTO has long been associated with the advancement of bathroom hygiene with the introduction of combined toilet and bidet units. Features such as heated seats, sensor-based lids and warm jets of water can be adjusted to individual preferences from a simple remote control.

## LONDON

## Classic Basins, Bidets & WCs

### EXCLUSIVE TO C.P.HART

C.P.Hart's exclusive London collection is our best-selling classic bathroom range, and for excellent reason. Every piece displays a flawless surface with a deep, lustrous finish, painstakingly produced by applying layer upon layer of a special glaze. London's combination of robust lines and elegant curves epitomises the appeal of traditional bathrooms

EXCLUSIVE TO C.P.HART

Our Claridge range of basins are designed to fit matching wooden furniture or a traditional basin stand. Handmade in England exclusively for C.P.Hart, they represent the quality and craftsmanship of a bygone age.

## 1930 Series

Unashamedly nostalgic yet timelessly modern, the octagonal design of the 1930 Series collection makes it a bathroom classic. This range was designed in the Golden Era and presented to the public for the first time in 1930. Over time, the 1930s Series has amassed many charming pieces to create the complete collection. Although inherently traditional in style, it also embraces modern preferences such as wall-mounted WCs and bidets.

## TOTO NEOREST

### AC

The TOTO Neorest AC washlet boasts superior levels of hygiene. The toilet bowl is coated with a special zirconium coating to ensure that waste, bacteria and limescale do not accumulate. A UV light is integrated in the lid to activate a decomposition process eliminating the need for a toilet brush. This combined toilet and bidet unit features a hands-free function using a remote control, a sensor-operated lid, warm-air drying, and an air-purifying system that deodorises during use.

### EW

The TOTO Neorest EW is akin to the AC, but is distinguished by the spray of electrolysed water on the toilet bowl to prevent a build-up of waste. It offers the same convenient features as the AC, such as a sensor-based lid that opens and closes automatically, a heated seat, a deodoriser to absorb unpleasant odours, and a dryer that can be activated as desired. A remote control is provided for ease of use.

## Cutting Edge Basins, Bidets & WCs

## NEOREST

### MH & GL

The Washlet GL can be used in conjunction with all TOTO WCs, including the TOTO MH. Its naturally curved shape blends in harmoniously with a range of bathroom styles, and provides a clean and comfortable bathroom experience. The Washlet GL includes all of TOTO's comfort technologies, including warm water spray, heated seat, deodoriser and drying function – simply adjust the features with an easy-to-use remote control.

## Cutting Edge Basins, Bidets & WCs

### SG

SG stands for 'Square Geometry'. This wall-mounted WC is the perfect solution for the style conscious seeking the latest in washlet technology. Smooth, almost seamless surfaces reveal chrome and stainless steel detailing for an enduring look. In addition to a heated seat, an odour-absorbing deodoriser and a dryer, it also features the new ewater+ function. This anti-bacterial spray using electrolysed water prevents waste from accumulating.

### GIOVANNONI

Designed by Stefano Giovannoni, the Giovannoni Washlet is a triumph of form and function, capturing both Italian style and the sophistication of Japanese bathroom culture. It comprises a self-cleaning washing wand, a heated seat, a deodoriser and a remote control. This revolutionary wall-mounted WC is the ideal addition to a contemporary bathroom space.

## AQUACLEAN

With Geberit AquaClean you can discover a greater sense of well-being and comfort in the bathroom. This new generation of WCs provide outstanding hygiene – a pleasant, warm jet of water will wash you clean at the touch of a button.

## SENSOWASH

SensoWash is part of a new generation of WCs that redefine comfort, hygiene and quality of life. Operated by remote control, Duravit's range of shower toilets make exceptional personal cleanliness simple and comfortable to achieve.

# Brassware

Here at C.P. Hart, we do not consider brassware to be an after-thought. Indeed, our range of basin, bath and bidet taps and mixers have their own individual character. From the dramatic to the understated, the angular to the organic, each collection is anything but ordinary. An investment in beautifully designed, precision-manufactured brassware will pay dividends in years of pleasureable use.

## Classic

Our classic brassware ranges are steeped in C.P. Hart history. John Hart, our founder's son, designed our famous Waterloo range, cast in solid brass, machined and assembled in the UK. A number of our traditional collections can be found in the capital's leading hotels, chosen for their timeless style, and reputation for quality and durability. For a true touch of luxury, specify a nickel or incaloy gold finish as an alternative to polished chrome.

## Contemporary

We offer exclusive contemporary brassware collections from some of the world's principal manufacturers. Complement minimalist basins with the graceful curves of Gessi's Ovale or the strong, sculptural profile of Dornbracht's Lulu. Or opt for the designer touch, with collections by creative visionaries such as Antonio Citterio and the Sieger brothers.

## Cutting Edge

Avant-garde brassware can add a distinctive element of luxury to the bathroom. Design and technology may combine to offer a unique sensory experience, as with Sensory Sky by Dornbracht, a shower that choreographs water, light and fragrance. Waterfall effects, wafer-thin shower heads and vortex systems are among the other innovations you can expect in our cutting-edge selection.

## MADISON

## Classic Brassware

Madison fuses nostalgic charm with simple functional design in this luxury brassware range. Separate 'hot' and 'cold' taps hark back to the early 1900s, and elegant cross-handles featuring white porcelain elements will give your bathroom a classic feel.

- Products shown:  
1. Deck-Mounted 4-Piece Bath Set  
2. 3-Piece Basin Mixer

## MIMI

## Classic Brassware

Mimi has an identity of its own while remaining distinctly 'Gessi' in nature. Romantic, sweeping lines reinterpret the signature minimalism of this Italian brand. Its silhouette expresses a timeless elegance that transcends interior styles.

# Baths

The pampering and relaxation provided by a well-designed bath is truly an antidote to a busy life. What's more, the importance of a bath in the overall scheme of a bathroom should not be overlooked. Owing to its size and form, it often provides the main focus and should be carefully selected to enhance or complement its surroundings. Our range of baths are precision-manufactured to an exceptionally high standard that guarantees they will stand the test of time.

## Freestanding

Freestanding baths have a timeless appeal, and are typically the centrepiece of a luxury bathroom. Design luminaries such as Philippe Starck, Jaime Hayon, Patricia Urquiola and Marcel Wanders offer a unique take on the freestanding bath, each a statement piece. Or choose a traditional cast iron roll-top bath with claw feet, painted to complement your room.

## Inset

The versatility of inset baths makes them a popular choice in the modern bathroom. For a streamlined look, choose an inset bath with a matching bath panel. To provide a decorative touch and draw the eye, frame a premium-quality enameled bath with boldly-patterned tiles. Inset baths in pressed steel are especially suited to contemporary styles as the lightweight material can offer a greater variety of shapes and design detail.

Winchester

Cast iron baths are normally supplied unpainted. The external surface can be left in its original metallic finish, or sanded, primed and painted to fit any bathroom colour scheme. This can be done on delivery, or for an additional cost the bath can either be supplied primed or fully painted. The Winchester bath, for example, is available in a choice of ten colours. Ask a C.P.Hart Sales Consultant for further details.

# Furniture

The right choice of furniture does more than simply add practicality and convenience, it can enhance the feel of the entire room. Our collection includes options that are both practical and visually appealing, with a choice of styles to complement any bathroom theme. All of our furniture is of exceptional build quality, including pieces by leading lights of the bathroom design world, many of them exclusive to C.P.Hart.

## Classic

Our classic furniture, such as the much-admired Hoxton range, is hand-made by highly skilled carpenters across the Irish Sea in Belfast. Heritage, design, materials, craftsmanship, all brought together to create items of unique beauty and character. To create an entirely fluid look for your bathroom, choose from C.P.Hart's extensive selection of freestanding bathroom cabinets, drawers, bath surrounds and consoles, or alternatively, choose one piece to turn into a feature in its own right.

## Contemporary

Luxury is about the desire of our designers to go beyond the purely functional and create something special and unique that is a joy in everyday use. That is the essence of our contemporary ranges by Italian makers, Artelinea. Their exquisite glass vanities and washbasins are characterised by their tactile curves and vivid colour schemes, and read more as decorative chests than functional washbasins.

## Cutting Edge

Designer Marcel Wanders' collection for Bisazzo Bagno can simply be described as 'functional glamour'. This witty celebration of showpiece bathroom furniture embodies imagination and function, and represents the ultimate in bathroom luxury. For a more understated aesthetic, consider the timeless appeal of Karol furniture that is strongly influenced by the landscape of Florence.

## HOXTON

### Classic Furniture

#### EXCLUSIVE TO C.P.HART

Labelled after the cosmopolitan London district favoured by designers, architects and photographers, the name Hoxton truly represents the artistic foundation of this design. Mixing traditional ceramics with antique furniture inspired this exclusive addition to C.P.Hart's extensive furniture portfolio.

# Homespa

The option of adding a home spa to your bathroom is one worth exploring. The variety of saunas, hammams and steam technology available has evolved greatly in recent years, and can now be accommodated in even the most compact of spaces. What was once considered an impractical extravagance is now commonplace in the modern bathroom. What could be more blissful than indulging in a luxury spa experience in your own home?

Saunas are a part of Finnish culture and consist of a heated room where you can experience dry or wet heat sessions designed to flush out toxins and promote relaxation. Our saunas such as Sky and LogicaTwin are styled to fit seamlessly into any bathroom setting, transforming the space into a serene retreat from the stress of everyday life.

Steam rooms or hammams originated from the Middle East, where it has long been the tradition to cleanse yourself with steam on a weekly basis to clear out impurities from the body. Our selection of steam rooms at C.P. Hart allows you to create the experience of a Turkish bath within your own home by combining sophisticated design with reliable technology that is easy to install.

Steam units are portable systems that can be installed into an existing shower or Turkish bath. Using advanced technology, these sleek high-tech units feature touch screen controls to deliver a flow of steam into an enclosure, with the option of additional LED lighting and aromatherapy for an enhanced experience.

The benefits of introducing heat and steam into your routine have been well documented. The word 'spa' itself derives from the Latin, 'health from water'. With an overall improvement in well-being, home spas improve circulation, relieve muscle pain, rejuvenate the skin and stimulate blood flow, as well as being able to calm and de-stress. Chromotherapy – or colour therapy – can further stimulate healing and relaxation through the use of LED lights.

## ST TROP

## Contemporary Homespa

Designed by the inimitable Philippe Starck, the St.Trop steam shower is presented as a minimalist rectangular cabin that is packed full of features. The overhead and hand showers deliver a luxurious daily shower experience, while the powerful steam generator provides the ultimate environment in which to unwind. Available as a back-to-wall or corner unit.

Product shown:

## INIPI

## Contemporary Homespa

With Inipi you can enjoy a sauna experience in a compact bathroom without the feeling of being closed in. Inspired by the sweat lodges of the original inhabitants of North America, designers EOOS have created an innovative sauna with an exceptionally stylish and transparent look. A unique remote control in the shape of a stone changes the temperature, air humidity, vaporisation, coloured light and sound.

Products shown:  
1. Double Bench Sauna Enclosure  
2. Sauna Enclosure With Attached Shower

## SKY

Sky saunas are the perfect combination of technology and style. The simple lines have transformed the sauna into an elegant piece of furniture styled to fit seamlessly into any part of the home. The glass front, door and top of Sky Glass give it extreme transparency and lightness, making the sauna's boundaries appear to melt away. Sky Techno features a linear pattern on the door that plays with the light to create a striking interior design feature, while Sky Deco flaunts geometric shapes in a random pattern forming floral designs, giving the sauna an attractive vibrancy.

## TOUCH AND STEAM

Installable in any shower or Turkish bath, Touch&Steam combines sleek design with solid performance and advanced features. Touch screen controls magically light the glass and allow you to choose a variety of functions for steam, chromotherapy and hot air circulation. A flow of steam is lit up by LEDs in the base of the hammam, and an option of using perfumed essences allows aromatherapy to be delivered through the luminous steam. Touch&Steam offers a truly tactile experience in the comfort of your own home.

## LOGICA TWIN/MIDI

Cutting Edge Homespa

Logica Twin is a combination of both the Finnish sauna and hammam. The practical design makes it possible to move between the sauna and the Turkish bath via a space fitted with a shower head. Talocci Design carefully considered every detail of the Logica Twin, creating a product of exceptionally elegant, refined design. A central column contains the touch screen controls for the sauna, hammam and shower that are utterly intuitive and user-friendly. The hammam is fitted with a high-tech Aquasteam steam generator and a built-in spring that adds a touch of magic to the system. The RGB LED lighting with colour therapy makes the Logica Twin an extremely soothing space in which to unwind, placing your well-being above all else.

# Shower Screens, Enclosures & Trays

Showers have increasingly become the focal point of the modern bathroom. The convenience and sensory pleasure are more important to many than the languorous luxury of a bath. This trend is reflected in greater choice and increasing innovation. The shower area should feel anything but enclosed, so consider frameless glass and trays that fit flush to the floor.

## Screens

Shower screens provide a much more enjoyable shower experience than fabric or plastic curtains, as well as having a more stylish and subtle appearance. A shower screen should be manufactured to exacting tolerances from high-quality safety glass with fittings that will not tarnish or corrode. Our extensive range includes single panel, folding double panel and full-width sliding screens, opening out left or right as required.

## Enclosures

The on-trend shower boasts minimal materials and is often not enclosed to allow greater freedom of movement. In the past, shower enclosures were often small with deep trays that needed to be stepped into. Minimalist designs now create a luxurious showering environment that feels almost 'open plan', using the highest quality frameless glass and trays that fit flush to the floor.

## Trays

Our range of shower trays extends from compact space-saving trays to low-profile units in a wide variety of sizes. Whether composite, steel or acrylic, all are strong, rigid and easy to clean. Consider our floor-level shower trays, which are designed to be fitted flush for a sleek, unobtrusive look, and come in a range of sizes and colours to either coordinate or contrast with the surrounding decor.

## CRYSTAL

The Crystal collection's meticulous design and ultra-violet bonded glass enable these shower enclosures to retain strength, rigidity and alignment with a minimum of components. This leaves them almost invisible, maximising the feeling of space in the bathroom. The thermal shock glass comes with glass guard to reduce smears and water staining.

# Installation

## C.P. Hart Recommended Installer Programme

Choosing an installer is the most critical decision in any bathroom project. Some modern bathroom products are complex and use new technology or advanced manufacturing. Fitting a C.P. Hart bathroom correctly requires skill, experience and attention to detail.

Yet the most vital element in commissioning any installation service is trust. C.P. Hart can recommend a list of installers who are all tried, and trusted.

We conduct background checks on every recommended installer. They must be eligible to work in the UK and hold relevant qualifications. All have their own Public Liability insurance. We only select installers who have proved careful and considerate. And of course we visit sites to see the quality of the work for ourselves. If standards drop, the installer is dropped from the list.

We can arrange for our recommended installers to visit the site and provide competitive quotes. The choice will then be yours.

C.P. Hart's Installer Manager can provide any additional assistance, and mediate in the event that problems arise. Talk to our any of our Sales Consultants for further information.
