

The Tile Collection
C.P. HART

The Tile Collection

C.P. HART

We aim to provide the finest bathroom products from leading designers and manufacturers around the world. Tiles can vary widely in quality and finish, and the choice can be bewildering. This selection is intended as an 'essentials' range, sourced and recommended by C.P. Hart, and suitable for a wide range of bathrooms.

Our tiles are fully vitrified to create a very hard, stain resistant surface. Most are colour-bodied, so the colour runs right through the body of the tile. The collection features large format tiles that add a feeling of space and luxury to a bathroom. C.P. Hart imports all its tiles from a small number of hand-picked factories in Spain and Italy that meet our quality standards.

The real qualities of a tile are hard to show in a brochure, or on a website. The colour, texture, feel and reflective qualities can only be judged by seeing and touching the tile. Each C.P. Hart showroom has a complete set of tiles to view, and stock samples that can be taken away and matched to furniture or room colour. There are always some variations from batch to batch and although every effort is made to represent the tiles accurately in this brochure, it is advised that customers request samples.

Many C.P. Hart clients now choose a wetroom. A fully watertight wetroom removes the need for a separate shower enclosure, and can open up a small space. The process is straightforward and results in a secure seal. Ask our sales consultants for further details.

The features of each range are indicated using the following symbols:

Suitable for use on floors

R RATING
Anti-slip rating. All C.P. Hart tiles are tested for slip resistance. The higher the R value, the greater the slip resistant qualities of the tiles.

Suitable for use on walls

V RATING
Colour and shade variation. All hand-made tiles exhibit natural variations from tile to tile. Some show greater differences in colour and shade than others, and this is indicated by a higher V value.

Frost proof

SAVIOLI

Savioli is a through-bodied porcelain tile, which is very versatile and timeless in style. The range comes in a choice of four matte colours drawn from the natural world. It also comes in two textures of finish, smooth and bush hammered. The latter is perfect for wet areas where additional grip is required.

AALTO

Aalto is a colour-bodied porcelain tile inspired by the hills of central Italy. The warm, organic colours vary markedly within each tile, reflecting a natural landscape. Aalto can be used for walls or floors, and works especially well when used on both. The five colourways can complement a classic or contemporary bathroom.

MOLLINO

Mollino's unique colouring and texture is drawn from the wood found in Italian petrified forests, turned to stone by the passing of millennia. The beautiful natural pattern varies dramatically from tile to tile. The richness of the colour palette makes it easy to match against a wide range of furniture and wall finishes. Available in two sizes that can be used separately or combined to create a distinctive and 'on trend' look.

ALBINI

Albini is a porcelain full-bodied tile which adopts the warm, rustic texture of worn timber. The tiles come in a variety of tones and surface decoration giving the bathroom a natural feel. This range has the look of wooden boards but has the advantage of lower maintenance and greater durability. Albini is easy to clean and stain resistant. Although it has a vintage feel, Albini would complement a contemporary or classic bathroom, in an urban or country setting.

PALLADIO

Palladio porcelain tiles are available in natural and polished finishes, in a variety of size options. The delicate marble-effect detailing gives the bathroom a refined, luxurious feel, and is equally at home in a classic or traditional setting. Palladio can be used for floors or walls, and is shown off to its best effect when used on both.

ELTHAM

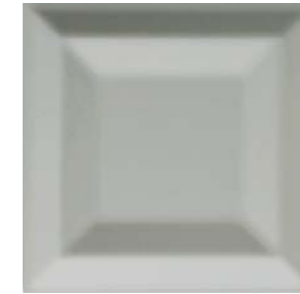

Eltham exudes an Art Deco glamour harking back to a decade of decadence. Quintessentially English, this traditional tile range is named after Eltham Palace, a showpiece of 1930s interior style. The tiles feature bevelled edges which give them texture and depth, and can be paired with flat tiles and borders for a bold contrast. Available in four colourways, from light to dark tones.

YORK

York is a traditional tile of an exceptional quality that will provide lasting pleasure. The rich and deep glaze will not stain or discolour over time, while its irregular hand-made look is perfect for creating an authentic period feel. York is available in a variety of pastel hues to provide a warm backdrop for a classic bathroom.

EDEN

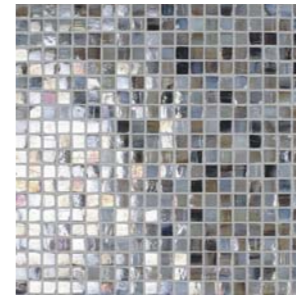

The ambient, iridescent quality of Eden mosaic tiles will bring a luxurious depth to your wetroom or bathroom. Between 30% and 60% recycled glass is used per colour, ensuring that each mosaic piece is unique. The hand-finished nature of the tiles means that anything from swirls to ripples will appear on each sheet, enhancing the character of your walls. Eden tiles are available in square or brick format in a choice of jewel tones.

GROUT

Beyond its practical function of sealing the tiles and protecting the tile edges, the choice of grout greatly influences the overall aesthetic effect. Matching the grout to the tile colour can provide a neutral base for the beauty of the tile. Choosing a contrasting colour can emphasise the pattern of the tiles across the surface.

C.P.Hart recommend and supply a high quality grout from Mapei. It is available in more than 40 colours. In the table below we suggest a suitable matching colour for each of our tiles.

For York, Fairmont, Eltham and Eden ranges, our grout colour suggestion will depend on the styling of the bathroom. Please ask a sales consultant for further advice.
